STAFF REPORT

City Council	
Meeting Date:	**8/12/2025**
Staff Report Number:	**25-112-CC**
Consent Calendar:	**Receive and file the investment portfolio quarterly reports for June 30**

Recommendation

Staff recommends the City Council receive and file the City's investment portfolio quarterly reports for June 30.

Policy Issues

The City and the Successor Agency funds are invested in full compliance with the City's investment policy and State law, which emphasize safety, liquidity and yield.

Background

The City's investment policy requires a quarterly investment report to the City Council, which includes all financial investments of the City, and provides information on the investment type, value and yield for all securities. The Finance and Audit Commission (FAC) held a regular meeting July 17 to review these investment reports and recommend receipt by City Council.

The City's investments are presented on an amortized cost basis as well as by fair market value. Amortized cost refers to the purchase price of the investment adjusted for factors like interest rates and payments over the lifetime of the investment. The difference between amortized cost and fair market value is referred to as an unrealized loss or gain. It is important to note that an unrealized loss or gain does not represent an actual transaction, but rather the difference between the cost and the current value. The City generally holds securities to maturity in an attempt to avoid market risk and minimize losses.

Insight Investment serves as the City's financial adviser and makes recommended trades, purchases, and sales of securities that align market conditions to the City Council-adopted investment policy to the greatest extent possible. The City has investments in corporate bonds, government agency notes and government bonds, which reflect a diversified, low-risk mix. These range from short-term (less than 90 days) to longer-term investments (1-5 years) with the goal of providing a greater rate of return. In addition, the City uses the Local Agency Investment Fund (LAIF), managed by the California State Treasurer, which provides similar liquidity to that of a money market fund. The current mix between LAIF and other investments was developed in coordination with Insight Investment to aid with anticipated cash flow needs.

The City's consolidated portfolio report for the quarter ending June 30 is included as Attachment A and described in detail below:

- LAIF – Approximately 3% of the portfolio resides in the City's LAIF account. The rate of return for LAIF yielded 4.27% for this quarter.
- Securities portfolio – The rate of return for the managed assets yielded 4.01%. Individual securities positions and maturities held at quarter-end along with purchases and transactions for the month of March are included in Attachment B.
- Environmental, Social, Governance (ESG) – The ESG ratings for corporate investments are based on a relative scale of 1 – 5, with 1 being the best investment. The ESG ratings at quarter-end are outlined in Attachment C. The overall score changed slightly from 3.05 to 3.06. With a score of 3.0 being average, the City's investments are slightly below average. ESG ratings are considered when evaluating new corporate investments, but are subordinate to safety, liquidity and yield, consistent with the City's

investment policy.

Performance comparison
As specified in the City's investment policy, the performance of the portfolio is measured against the benchmark of a treasury bond. For the quarter ending June 30, the City's portfolio yielded 4.02% with a weighted average maturity of 2.03 years. The average two-year Treasury note saw a yield of 1.97%, or 2.07% lower than the City's portfolio performance.

Return for the two-year Treasury note, along with other comparative rates of return, can be found in the activity and performance summary section of Attachment B. Primary factors influencing the City's portfolio are tariff policies, Federal Reserve monetary policy, inflation and labor market conditions. Additional discussion on the fixed income market, including economic indicators, can be found in the investment details reports in Attachment B.

Impact on City Resources

Based on the liquidly of LAIF, as well as the balances in the City's bank account with U.S. Bank, the City has sufficient funds available to meet its expenditure requirements for the next six months.

Environmental Review

This action is not a project within the meaning of the California Environmental Quality Act (CEQA) Guidelines §§15378 and 15061(b)(3) as it will not result in any direct or indirect physical change in the environment.

Public Notice

FIXED INCOME MARKET REVIEW

As of June 30, 2025

Chart 1: The FOMC keeps two cuts on the agenda for 2025

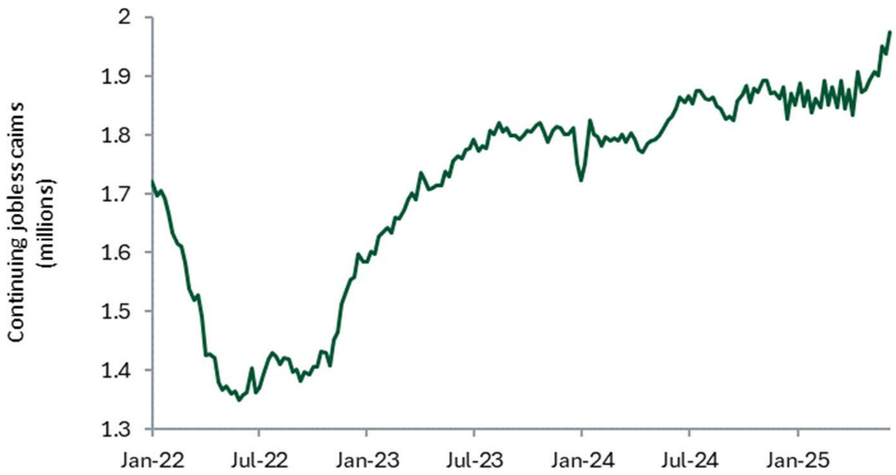
Chart 2: Continuing jobless claims reach another new cycle high



Source: Department of Labor, Bloomberg, June 30, 2025

Economic Indicators and Monetary Policy

The Federal Reserve's latest median "dot plot" continued to project two rate cuts in 2025, albeit voting was heavily bifurcated among those voting for no cuts and those voting for two. Beyond 2025, the committee's rate projections were slightly more hawkish than they were in March (Chart 1). The committee also slightly raised its inflation projections. Chair Powell struck notes of caution stating: "we expect a meaningful amount of inflation to arrive in the coming months, and we have to take that into account".

The latest estimate of Q1 GDP was -0.5% SAAR, down from the previous estimate of -0.2%. It showed a lower positive contribution from consumption relative to the previous estimates.

Inflation remained relatively stable. CPI rose from 2.3% to 2.4% while PCE rose from 2.2% to 2.3%. Core CPI remained at 2.8% while core PCE rose from 2.6% to 2.7%. The "stubborn" core services categories were generally relatively well behaved. There were some initial signs of tariff inflation within some minor categories such as auto parts and canned fruits and vegetables, albeit the impact was not enough to materially impact overall figures.

Labor market data indicated tighter hiring conditions, if not an inflection point in layoffs. Monthly payrolls showed 139,000 jobs added to the economy, while the unemployment rate remained at 4.2% and wage growth remained at 3.9%. Weekly initial jobless claims eased from 248,000 to 236,000, but continuing claims reached a new cycle high at just under two million (Chart 2).

On the trade front, the White House further increased tariffs on steel and aluminum from 25% to 50%, including an expanding range of "derivative products". The administration exempted the UK, depending on the status of the US-UK trade deal framework.

Politics-wise, the Senate revised the proposed "One Big Beautiful Bill Act" to make certain business-related tax provisions permanent, slow the phase-out of various clean energy credits, include a lower SALT cap and deeper Medicaid cuts.

Interest Rate Summary

It was a "risk on" month for markets, with equity markets continuing to recover while Treasury yields fell across the curve. At the end of June, the 3-month US Treasury bill yielded 4.29%, the 6-month US Treasury bill yielded 4.25%, the 2-year US Treasury note yielded 3.72%, the 5-year US Treasury note yielded 3.8% and the 10-year US Treasury note yielded 4.23%.

ADDITIONAL INFORMATION

As of June 30, 2025

Past performance is not indicative of future results. Investment in any strategy involves a risk of loss which may partly be due to exchange rate fluctuations.

The performance results shown, whether net or gross of investment management fees, reflect the reinvestment of dividends and/or income and other earnings. Any gross of fees performance does not include fees and charges and these can have a material detrimental effect on the performance of an investment. The performance shown is for the stated time period(s) only.

Any target performance aims are not a guarantee, may not be achieved and a capital loss may occur. Funds which have a higher performance aim generally take more risk to achieve this and so have a greater potential for the returns to be significantly different than expected. Investments are subject to risks, including loss of principal. There can be no guarantee that any investment strategy will meet the liability funding needs of a particular client.

Performance information for certain accounts may reflect performance achieved while the account was managed at a prior firm. In addition, the performance and customized benchmark information for these periods are based on Information from 3rd parties that Insight believes to be accurate, but Insight has not independently verified such information and no representation is made regarding its accuracy or completeness.

The quoted benchmarks do not reflect deductions for fees, expenses or taxes. These benchmarks are unmanaged and cannot be purchased directly by investors. Benchmark performance is shown for illustrative purposes only and does not predict or depict the performance of any investment. There may be material factors relevant to any such comparison such as differences in volatility, and regulatory and legal restrictions between the indices shown and the strategy.

Any currency conversions performed for this presentation, use FX rates as per WM Reuters 4pm spot rates, unless noted otherwise.

Funds and portfolios with an ESG objective follow a sustainable or ESG related investment approach, which may cause them to perform differently than funds that are not required to integrate sustainable investment criteria when selecting securities. Funds and portfolios with no ESG objective are not required to integrate sustainable investment criteria when selecting securities so any ESG approach shown is only indicative and there is no guarantee that the specific approach will be applied across the whole portfolio.
