

I am James Rohr and I am officially announcing my candidacy for City Council, citing my lifelong dedication to strong local governance and my desire to ensure equitable representation for all residents within both the city and District 1.

My perspective is shaped by my service in the U.S. Army and my time living abroad in Europe. Professionally, I bring over twenty years of robust technical leadership to this community. My career has specialized in cybersecurity and systems administration, including time at NASA's security operations center.

I am deeply committed to our District and neighborhood, spending time every month meeting with our community based organizations working alongside neighbors to address key issues facing Belle Haven. I am running for the City Council to ensure every voice in District 1 is heard and that we achieve equitable representation in our city government.

As a resident of Menlo Park and an active volunteer in Belle Haven, I aim to bridge the gap between technical expertise and our community's needs. In my free time, I enjoy gardening and walking my dog, remaining deeply connected to the local neighborhood life I am honored to serve.
