Menlo Park, CA 94025

**Re: 800 Oak Grove Avenue Mixed-Use Housing Development Project -
SB 330 Preliminary Application and Full Application Cover Letter**

Dear Planning Division:

We represent 800 Oak Grove Owner, LLC (“Applicant”) for the mixed-use development proposed at 800 Oak Grove Avenue (APN: 071-091-520) (the “Project Site”) in the City of Menlo Park (the “City”). The proposed project consists of 15 residential units, plus the rehabilitation of the existing office building already on the Project Site to include 15,775 gross square foot (“sf”) of office use. The application package includes a more detailed project description.

The Applicant is pleased to submit both (I) a SB 330 preliminary application and (II) a full development application pursuant to state housing production laws.

The following provides more detail.

(I) SB 330 Preliminary Application

The Project’s SB 330 preliminary application provides all information required by law which is on the City’s preliminary application form and checklist, but to the extent the City has any comments regarding the sufficiency of the preliminary application, we trust that the City will inform us within 30 days.

By submitting a preliminary application that contains all of the information required by Government Code Section 65941.1(a), the Applicant obtains a vested right to develop a housing development project in accordance with the applicable “ordinances, policies, and standards adopted and in effect” when the preliminary application is submitted.¹ This includes “general plan, community plan, specific plan, zoning, design review standards and criteria, subdivision standards

¹ Gov. Code § 65589.5(o)(1).

and criteria, and any other rules, regulations, requirements, and policies of a local agency. . . including those relating to development impact fees, capacity or connection fees or charges, permit or processing fees, and other exactions.”²

Additionally, as discussed below, the preliminary application proposes a qualifying “housing development project” pursuant to the Housing Accountability Act because “at least two-thirds of the new or converted square footage is designated for residential use.”³ The Project will contain 41,190 square feet of space “designated for residential use” which will accompany the proposed 15,600 square foot nonresidential office – producing an overall development that is 72.5 percent residential as measured by square footage. Therefore, as a “housing development project,” this Project is entitled to the full scope of benefits and protections available.

(II) Full Application

To preserve the vesting offered by a preliminary application, applicants must submit a corresponding full development application “within 180 calendar days after submitting a preliminary application with all of the information required.”⁴ The law does not require any waiting period between applicants’ submission of these documents, so long the subsequent development application is received “within 180 calendar days.”⁵ Accordingly, the Applicant chooses to satisfy this requirement by submitting both applications concurrently.

We also note that unique requirements apply because the Project includes both the rehabilitation of an existing office building and the construction of a new residential building. Further, because the preexisting office building was constructed prior to the adoption of the El Camino Real/Downtown Specific Plan on June 12, 2012, it “shall be exempt from the development standards of the El Camino Real/Downtown specific plan,”⁶ and “any building exempt under subsection (a) of this section may undergo interior and/or exterior improvements to the building if there is no increase in the gross floor area.”⁷ As discussed further below, because that the Project plans call for a nominal increase in commercial floor area to accommodate a roof deck that enables the financial feasibility of providing affordable housing, the Applicant will seek a concession from the prohibition on floor area increases.

A. Architectural Control

As explained further below, office and residential uses are “permitted” under the use designations in the City’s Downtown/El Camino Real Specific Plan, which controls over the Project site. Thus, because the Project (a mixed-use project) is designed to be consistent with the density limitations and development standards for the applicable designations and uses State Density Bonus Law

² Gov. Code § 65589.5(o)(4).

³ Gov. Code § 65589.5(h)(2)(B)(i).

⁴ Gov. Code § 65941.1(e).

⁵ *Id.*

⁶ MPMC Sec. 16.80.120(a).

⁷ MPMC Sec. 16.80.120(e).

concessions and waivers for deviations, it does not require any legislative approvals. The Project will require an Architectural Control entitlement pursuant to MPMC Code Section 16.68.020, both because the Project requires renovation of the existing office building on the Project site and construction of the new condominium residential building. Therefore, the enclosed application package includes the architectural drawings showing elevations, landscaping, parking facilities, and other aspects of design plans required for Architectural Control approval.⁸

B. BMR Agreement

As part of the Project's application, a BMR Agreement will be required for the residential portion of the Project.⁹ As the BMR Housing Program Guidelines explain, because the Project size falls between ten (10) and nineteen (19) residential units, it is required to provide 10% units at below market rates.¹⁰ Section 3.4.1 of the Guidelines recognizes that a fractional BMR unit require may result, and allows applicants to pay an in-lieu fee to account for fractional units. Here, the 15-unit Project is required to provide 1.5 affordable housing units. To meet this requirement, the Project includes one (1) lower-income affordable housing unit (6.7% of the total units in the Project), and will pay the in-lieu fee to cover the remaining 0.5 unit required under the BMR Housing Program.¹¹ As required, the Project will make an in-lieu payment calculated at 3% of the actual sales price of each unit sold beyond those covered by the on-site provision of affordable housing—i.e., for the eleventh, twelfth, and thirteenth market-rate units sold.¹²

For the commercial portion of the Project, compliance is achieved by paying an in-lieu fee payment of \$21.12 per sq. ft. of new gross floor area. Here, the BMR in-lieu fee is for the Project's commercial component is limited because (i) there is only a nominal increase in "new" gross square footage of commercial space, and (ii) merely involves the rehabilitation of existing commercial space. Indeed, the BMR Guidelines state that "the [BMR Program] applies to the construction of any new square footage or any square footage that is converted from an exempt use to a non-exempt use, [as well as] conversion of floor area from a less intensive use (Commercial/Industrial uses) to a more intensive use (Office/R&D)." Here, the Project is

⁸ MPMC Section 16.68.020 states: "When an application is made for a building permit for the construction, alteration or remodeling of any building other than a single-family dwelling, duplex and accessory building, it shall be accompanied by architectural drawings showing elevations of the proposed building or structure, proposed landscaping or other treatment of the grounds around such building or structure, and proposed design of, and access to, required parking facilities. Such drawings shall be considered by the planning commission, architectural committee, or community development director which shall approve said application if the following findings are made:" "The community development director shall be limited to approving minor modifications to buildings located in the M-2 (general industrial) district, the O (office) district, and the LS (life sciences) district. For purposes of this section, a minor modification is considered one in which there is no increase in gross floor area."

⁹ § 16.96.020(c).

¹⁰ § 16.96.020(b).

¹¹ [See BMR Program Guidelines, Section 3.4.1.](#)

¹² [BMR Program Guidelines, Section 4.3.1.](#)

rehabilitating existing office space and retaining it as office space. Therefore, the commercial portion of the Project should not be generating any new demand on affordable.

C. Major Subdivision (Vesting Tentative Subdivision Map)

The Project will include dividing the existing parcel into more than five parcels to create residential for-sale condominium units, and therefore the Project application also includes materials to seek approval of a Major Subdivision by filing a Vesting Tentative Subdivision Map.¹³ In addition to the protections offered by SB 330, the approval or conditional approval of the vesting tentative map shall confer a vested right to proceed with development in substantial compliance with the ordinances, policies and standards described in Government Code Section 66474.2.¹⁴ The map shall expire two (2) years from the date of approval or conditional approval, with extensions available.¹⁵ In addition, the life of the vesting tentative map is tolled for moratoria,¹⁶ litigation,¹⁷ and as otherwise granted by the legislature. Final maps will be filed prior to the expiration of the term of the tentative map.¹⁸

(III) State Housing Laws

A. SB 330

As noted above, the Project is a housing development project subject SB 330's processing protections, including vested rights, a 5 hearing maximum, completeness streamlining, among others.

B. Housing Accountability Act

The entitlement process is further regulated by the Housing Accountability Act ("HAA"). The HAA defines "housing development project" to include uses consisting of "[m]ixed-use developments consisting of . . . at least two-thirds of the new or converted square footage is designated for residential use."¹⁹ Under the HAA, local agencies cannot disapprove housing development projects that comply with all applicable objective general plan and zoning

¹³ Included materials fulfill the requirements set forth in MPMC Sec. 15.22.060

¹⁴ MPMC Sec. 15.22.090(a).

¹⁵ MPMC Sec. 15.20.070; Gov. Code § 66452.6(a)(1).

¹⁶ Development moratoriums include sewer and water moratoriums, and other public agency actions that delay or prohibit the approval of the final map (Gov. Code § 66452.6(f)). They also include periods when map conditions cannot be easily satisfied because they require local agency action or acquisition of real property from a public agency action or acquisition of real property from a public agency (Gov. Code § 66452.6(f)). See also Gov. Code § 66452.6(b)(1); Gov. Code § 66452.6(b)(1).

¹⁷ Gov. Code § 66452.6(c).

¹⁸ Gov. Code § 66452.6(d).

¹⁹ Gov. Code § 65589.5(h)(2)(B)(i).

standards, unless a local agency makes narrow findings that our Legislature has affirmed its expectation that these types of conditions “arise infrequently.”²⁰

Here, the overall Project will consist of approximately 62,195 gross square feet of residential and nonresidential development: of this square footage, the proposed 15,775 gross square foot office building will be used for commercial space, while the new residential building will include 46,420 gross square feet designated for residential use. Therefore, because at least two-thirds of the Project’s square footage is designated for residential use, the Project is a qualifying “housing development project” pursuant to the HAA. Therefore, the Project is protected by the HAA.

The application package further documents the Project’s compliance with objective standards. At a high level, the Project site is designated “Downtown Adjacent” in the Downtown / El Camino Real Specific Plan, which principally permits multifamily residential land uses and permits commercial office uses subject to design limitations.²¹ The Project is a primarily residential development with the renovation of the existing office building and complies with the applicable density and other objective standards, except for where exempted pursuant to concessions and waivers under the State Density Bonus Law (Gov. Code § 65915) described further below.

C. State Density Bonus Law Requests

Since the Project will set aside 1 unit for a Very Low income household (or 6.7% of the Project²²), it qualifies for the State Density Bonus Law (“SDBL”) benefits identified below by providing at least 5% percent of dwelling units for Very Low income households.²³ In addition, the Project qualifies for waivers and concessions from mandatory objective standards. While the Applicant strives to develop the Project consistent with the City’s standards and guidelines, as a housing development project protected by the HAA, only mandatory, objective standards can be applied to the Project unless narrow circumstances exist that are not relevant here.²⁴ “Objective” means “involving no personal or subjective judgment by a public official and are uniformly verifiable by reference to an external and uniform benchmark or criterion available and knowable by both the development applicant or proponent and the public official before submittal”—if reasonably people can disagree on whether the Project complies with a given standard, it is not objective and cannot be imposed on the Project.²⁵

To facilitate the City’s review, the Applicant team has carefully analyzed and documented the Project’s compliance with all mandatory, objective standards in the Objective Standards

²⁰ Gov. Code § 65589.5(a)(3).

²¹ See [Menlo Park El Camino Real and Downtown Specific Plan](#), pp. E4-E6.

²² The City’s Below Market Rate Housing Program generally requires projects to provide 10% affordable housing, and recognizes that for small ownership projects, it may be necessary to make a pro rata in lieu payment ([see BMR Program Guidelines, Section 3.4.1](#)). The Applicant will do so for this Project pursuant to BMR Program Guidelines Chapter 4.

²³ Gov. Code § 65915(b)(1)(B).

²⁴ See Gov. Code § 65589.5(j)(1).

²⁵ Gov. Code § 65589.5(f)(9).

Compliance Chart included in the Project submittal materials, and has also identified standards that are not objective and/or mandatory and therefore cannot be imposed on the Project. Again, we note that while the office building's compliance has been analyzed for completeness, because the preexisting office building was constructed prior to the adoption of the El Camino Real/Downtown Specific Plan on June 12, 2012, it "shall be exempt from the development standards of the El Camino Real/Downtown specific plan,"²⁶

We have also identified the resulting SDBL requests and also reserve the right to modify all SDBL requests at a later date.

SDBL Category	SDBL Request
Bonus	The Project qualifies for a 20% bonus based on the provision of at least 5% Very Low income units. However, no bonus is requested at this time.
Concession	<p>The Project restricts 6.7% of the total base units to Very Low-income residents and is therefore entitled to one incentive/concession. The Density Bonus Law defines concessions as modifications or reductions from development standards that result in identifiable and actual cost reductions to provide for affordable housing costs.²⁷ The local government must grant a requested concession unless it makes one of the findings set forth in Government Code Section 65915(d).</p> <p>The Project requires a concession from the limit on increasing the gross floor area for pre-existing buildings that are exempt from the El Camino Real/Downtown Specific Plan in MPMC Section 16.80.120(c).²⁸ A concession is necessary because the currently-standing office building will be renovated as part of the Project, and ancillary changes will require floor area increases that will result in increasing the office building from 14,739 to 15,775 square feet.</p> <p>These ancillary changes are critical to generate additional revenue to subsidize the provision of affordable housing within this mixed-use Project.²⁹ Specifically, adding floor area is necessary to enable to</p>

²⁶ MPMC Sec. 16.80.120(a).

²⁷ Gov. Code § 65915(k)(1).

²⁸ We separately note that while Specific Plan Section E.3.1.01 specifies that Business and Professional office (inclusive of medical and dental office) cannot exceed one half of the base FAR or public benefit bonus FAR, whichever is applicable, the office building is exempt from this requirement pursuant to MPMC Section 16.80.120(a) because the office building was constructed prior to the adoption of the El Camino Real/Downtown Specific Plan and is therefore "exempt from the development standards of the El Camino Real/Downtown specific plan,"

²⁹ See Gov. Code § 65915(k), which explains that concessions can cover requests relating to mixed uses when "commercial, office, industrial, or other land uses will reduce the cost of the housing development and if the commercial, office, industrial, or other land uses are compatible with the housing project and the existing or planned

	<p>construction of a roof deck and supporting structures that will significantly enhance the office building's amenity offerings and therefore potential rents, which will in turn drive revenue to support the Project's affordable housing. Without the ability to increase the commercial square footage, the Project could not include the roof deck, which would limit the desirability and marketability of commercial space in the office building, restricting the office rental revenue available to subsidize the Very Low-income, for-sale affordable housing unit. The Applicant has conducted careful analysis of the local office leasing market that confirms that the roof deck will allow the office space to command higher rent prices. There are a number of reasons for the premium, but tenants generally prefer outdoor amenities and a roof space in Menlo Park would create special opportunities for tenants and a unique marketing advantage for the building. This is indicative of the wider "flight to quality" trend in the Bay Area office market, which has seen robust growth and demand for new, highly-amenitized Class A office. A less desirable office product would result in lower office rents, which would mean the affordable unit would be relatively more expensive to provide. Stated differently, if the office leases require significant discounts—or less space can be leased—the relative cost of the affordable unit (as a percentage of project value) increases. By allowing higher-value commercial office to be developed, the relative cost of the affordable unit is reduced thereby meeting the criteria for an "concession."</p> <p>Finally, we note that SB 92, signed by the Governor on October 10, 2025, provides that "a concession or incentive shall not result in a proposed project with a commercial floor area ratio that is greater than two and a half times the premises' current allowed base zone commercial floor area ratio." (Gov. Code 65915(l)(1)(a)) This provision acknowledges the ability to use SDBL concessions for increases to commercial floor area. The requested increase in square footage does not exceed 2.5 times that allowed by the base zoning and is therefore permissible.</p>
Waiver	<p>Pursuant to the SDBL, a local agency shall not apply "any development standard that will have the effect of physically precluding the construction of" a density bonus project at the densities permitted under the SDBL and with the concessions requested by the applicant.³⁰ Courts have clarified that "a city may not apply any development standard that would physically</p>

development in the area where the proposed housing project will be located," as is the case here.

³⁰ Gov. Code § 65915(e).

preclude construction of that project as *designed*, even if the building includes ‘amenities’ beyond the bare minimum of building components.”³¹ This means that the Project is eligible for unlimited waivers. The requested waivers include the following:

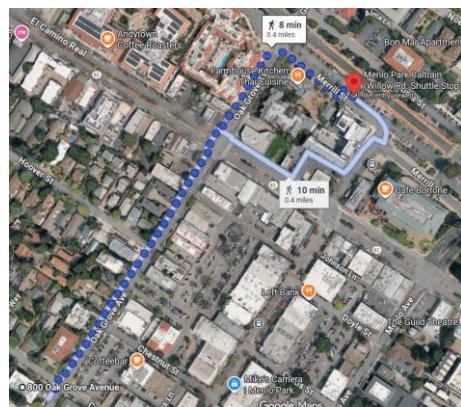

1. Overall FAR – Here, the Project’s overall FAR (1.90) exceeds the maximum “step up” base FAR (of 1.55). A waiver is requested for the overall FAR of 1.90. Allowing additional FAR is necessary to accommodate the development program and density of residential development as designed for the Project. Without the waiver, the FAR limitation will physically preclude construction of the Project as designed.
2. Setbacks – Specific Plan Section E.3.4.3.01 specifies that the 45-degree building profile shall be set at the minimum setback line. While the commercial building complies with this requirement, compliance by the residential building would require a redesign that would result in the loss of units and square footage, particularly on the upper floors, meaning the requirement physically precludes construction of the Project.
3. Horizontal Building & Architectural Projections – Specific Plan Section E.3.4.3.02 specifies that horizontal building and architectural projections, like balconies, bay windows, dormer windows, canopies, awnings, and signage, beyond the 45-degree building profile must comply with the standards for Building Setbacks & Projection within Setbacks (E.3.3.04 to E.3.3.07). While the commercial building complies, the residential building would need to be redesigned in order to comply, resulting in the loss of units and square footage, meaning the requirement physically precludes construction of the Project.
4. Vertical Building Projections – Specific Plan Section E.3.4.3.03 specifies that vertical building projections like parapets and balcony railings shall not extend 4 feet beyond the 45-degree building profile. While the commercial building complies, the residential building would need to be redesigned in order to comply, and would result in the loss of units and square footage, meaning the requirement physically precludes construction of the Project.

³¹ *Bankers Hill 150 v. City of San Diego* (2022) 74 Cal.App.5th 755, 775 (emphasis added), citing *Wollmer v. City of Berkeley* (2011) 193 Cal.App.4th 1329, 1346.

Parking Reduction	The Project is also eligible for parking reductions under the SDBL. The Applicant is not requesting SDBL parking reductions and is instead invoking AB 2097.
--------------------------	--

D. AB 2097

Since the Project is located within $\frac{1}{2}$ mile of a major transit stop (Caltrain Menlo Park Station), it is subject to AB 2097, which precludes the City from imposing minimum parking standards. The Project is located within the El Camino Real and Downtown Specific Plan, which imposes a requirement to provide 1.0 (minimum) to 1.5 (maximum) parking spaces per multi-family dwelling, and minimum 3.8 parking spaces per 1,000 square feet of gross floor area of general office space.³²

E. CEQA Clearance – AB 130

Our Legislature recently enacted a new statutory exemption for in-fill projects, commonly referred to as AB 130. Per the analysis contained at [Exhibit 1](#), the Project qualifies for this new statutory exemption. This letter constitutes formal notification that the Project is eligible to be exempt.³³

We also note that the Project additionally qualifies for further exemptions beyond AB 130.³⁴

³² See [Menlo Park El Camino Real and Downtown Specific Plan](#), p. F19.

³³ See Pub. Res. Code § 21080.66(b)(1)(A)(ii).

³⁴ First, the Project qualifies for the exemption under CEQA Guidelines § 15182 for projects consistent with a specific plan (see CEQA Guidelines § 15182(a)). Second, the Project qualifies for the exemption under CEQA Guidelines § 15183 for projects consistent with a General Plan, which provides that when a project is consistent with the density established by zoning, community plan, or general plan policies for which an EIR was certified, it shall not require additional environmental review, except as might be necessary to examine project specific significant effects which are peculiar to the project or its site. To that end, the lead agency must limit its environmental review to impacts that are: (i) peculiar to the project or the parcel on which the project would be located, (ii) were not

F. Streamlined Processing

We note that timing requirements to process and approve the Project apply under SB 330, the Permit Streamlining Act, and AB 130. Under the Permit Streamlining Act, as an application for a development permit, the City has 30 days to review the application for completeness under the Permit Streamlining Act. Thereafter, the Applicant will have 90 days to respond to that determination and resubmit updated materials as applicable. Thereafter, the City once again has 30 days to review the application for completeness and accept subsequent resubmittal by the Applicant, but note that if the City determines an application to be incomplete after two resubmittals it “shall bear the burden of establishing that the determination is not an effective disapproval of a housing development project” subject to associated risks and penalties.³⁵

Once the formal application is deemed complete, AB 130 requires the City to notify each tribe traditionally and culturally affiliated with the Project site within 14 days.³⁶ Each tribe then has 60 days to notify the City that it accepts the invitation to consult.³⁷ If no tribe responds within 60 days, the consultation process is concluded,³⁸ and pursuant to the AB 130 statutory exemption, the City must approve the Project within 30 days.³⁹ If tribes elect to participate, the consultation must conclude within 45 days of initiation, subject to a one-time 15 day extension at the tribe’s request.⁴⁰ Thereafter, the 30-day deadline remains for the City to approve the Project.⁴¹

We would welcome and appreciate the opportunity to discuss the implementation of this obligation in relation to the Project processing.

III. Conclusion

analyzed as significant effects in a prior EIR which the project is consistent with, and/or (iii) potentially significant off-site impacts and cumulative impacts which were not discussed in the prior EIR, and/or (iv) previously identified significant effects which, as a result of substantial new information which was not known at the time the EIR was certified, are determined to have a more severe adverse impact than discussed in the prior EIR. Third, the Project may also qualify for CEQA streamlining as a Transit Priority Project (“TPP”) pursuant to SB 375 and could therefore use a Sustainable Communities Project Exemption (“SCPE”) or Sustainable Communities Environmental Assessment (“SCEA”). SCEAs are limited environmental review documents that tend to be less costly and time consuming as EIRs to prepare, but subject to the same judicial standard of review as EIRs. A SCPE, on the other hand, is an exemption to CEQA.

³⁵ Gov. Code § 65589.5(h)(6)(F)(iv).

³⁶ Pub. Res. Code § 21080.66(b)(1)(A).

³⁷ Pub. Res. Code § 21080.66(b)(2)(A).

³⁸ Pub. Res. Code § 21080.66(b)(2)(B).

³⁹ Gov. Code § 65950(a)(7).

⁴⁰ Pub. Res. Code § 21080.66(b)(3)(F).

⁴¹ Please also note that failure to take final action within 30 days is a defined, actionable violation of the HAA (Gov. Code § 65589.5(h)(6)(B)).

December 21, 2025

If the zoning and general plan are not consistent with one another, a project shall be deemed consistent with both if the project is consistent with one.</p> <p>C. The approval of a density bonus, incentives or concessions, waivers or</p>	YES	<p>The Project is consistent with the uses of the Specific Plan, and we assume the Project can achieve consistency (via SDBL or community amenities bonus development) with Specific Plan development standards.</p>

structure, transit or transportation passenger facility, or retail use, or any combination of those uses.”

<p>reductions of development standards, and reduced parking ratios pursuant to Section 65915 of the Government Code shall not be grounds for determining that the project is inconsistent with the applicable general plan, zoning ordinance, or local coastal program.</p>		
<p><u>21080.66(a)(5) – Minimum Density Requirement</u></p> <p>The project will be at least one-half of the applicable density specified in subparagraph (B) of paragraph (3) of subdivision (c) of Section 65583.2 of the Government Code.</p>	YES	<p>The Project's proposed density of 19.94 du/ac exceeds the requisite 15 du/ac.</p>
<p><u>21080.66(a)(6) – SB 35 Environmental Criteria</u></p> <p>The project satisfies the requirements specified in paragraph (6) of subdivision (a) of Section 65913.4 of the Government Code.</p> <p>See Table 2.</p>	YES	<p>See Table 2. The Project satisfies these criteria.</p>
<p><u>21080.66(a)(7) – Historic Resources</u></p> <p>The project does not require the demolition of a historic structure that was placed on a national, state, or local historic register before the date a preliminary application was submitted for the project pursuant to Section 65941.1 of the Government Code.</p>	YES	<p>No historic resources known at the Project site.</p>
<p><u>21080.66(a)(8) – Hotels Prohibited</u></p> <p>For a project that was deemed complete pursuant to paragraph (5) of subdivision (h) of Section 65589.5 of the Government Code on or after January 1, 2025, no portion of the project is designated for use as a hotel, motel, bed and breakfast inn, or other transient lodging.</p> <p>For purposes of this section, “other transient lodging” does not include either of the following:</p>	YES	<p>The Project does not include a hotel component.</p>

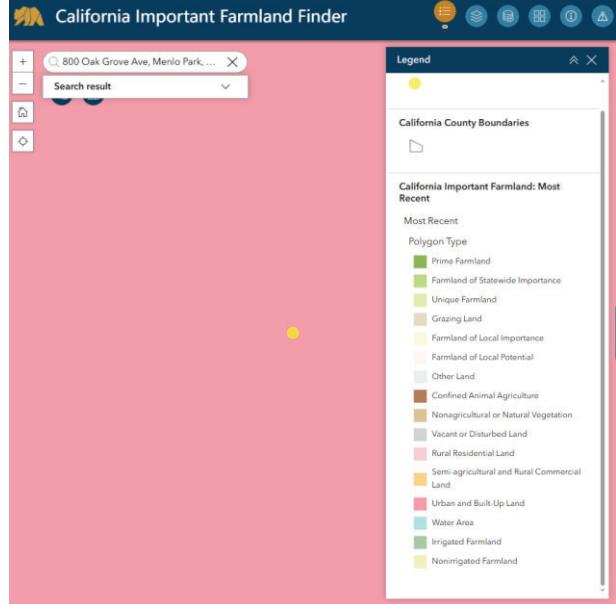

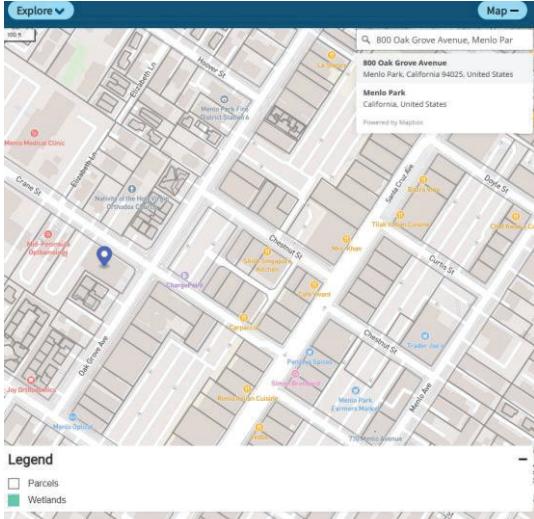

<ul style="list-style-type: none"> A. A residential hotel, as defined in Section 50519 of the Health and Safety Code. B. After the issuance of a certificate of occupancy, a resident's use or marketing of a unit as short-term lodging, as defined in Section 17568.8 of the Business and Professions Code, in a manner consistent with local law. 		
<p><u>21080.66(b) – Tribal Consultation Required</u></p> <p>The local government shall engage in formal notification and consultation with each California Native American tribe that is traditionally and culturally affiliated with the Project Site, pursuant to the various requirements of Government Code section 21080.66(b).</p>	YES	<p>Project will comply with the tribal consultation process requirement.</p>
<p><u>21080.66(c)(1) – Phase I ESA Required</u></p> <ul style="list-style-type: none"> A. The local government shall, as a condition of approval for the development, require the development proponent to complete a Phase I Environmental Assessment, as defined in Section 78090 of the Health and Safety Code. B. If a recognized environmental condition is found, the development proponent shall complete a preliminary endangerment assessment, as defined in Section 78095 of the Health and Safety Code, prepared by an environmental assessor to determine the existence of any release of a hazardous substance on the site and to determine the potential for exposure of future occupants to significant health hazards from any nearby property or activity. C. If a release of a hazardous substance is found to exist on the site, the release shall be removed or any effects of the release 	YES	<p>The Project will comply with this requirement. No recognized environmental conditions (REC) known at the Project site.</p>

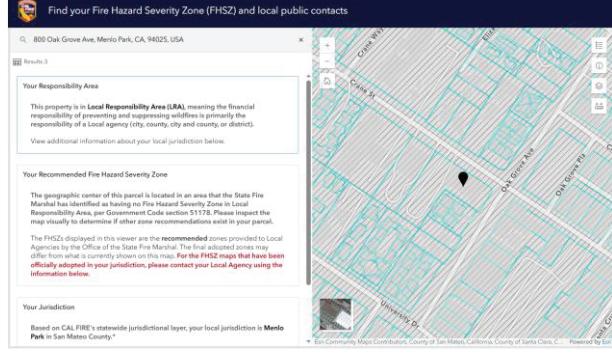

<p>shall be mitigated to levels required by current federal and state statutory and regulatory standards before the local government issues a certificate of occupancy.</p> <p>D. If a potential for exposure to significant hazards from surrounding properties or activities is found to exist, the effects of the potential exposure shall be mitigated to levels required by current federal and state statutory and regulatory standards before the local government issues a certificate of occupancy.</p>		
<p><u>21080.66(c)(2) – Units Near Freeways</u></p> <p>For any house on the site located within 500 feet of a freeway, all of the following shall apply:</p> <p>A. The building shall have a centralized heating, ventilation, and air-conditioning system.</p> <p>B. The outdoor air intakes for the heating, ventilation, and air-conditioning system shall face away from the freeway.</p> <p>C. The building shall provide air filtration media for outside and return air that provides a minimum efficiency reporting value of 16.</p> <p>D. The air filtration media shall be replaced at the manufacturer's designated interval.</p> <p>E. The building shall not have any balconies facing the freeway.</p>	YES	<p>The Property is sufficiently removed from all freeways. It is approximately 1,065 sq. ft. from State Highway 82, approximately 2 miles away from US 101, and approximately 2.2 miles away from State Highway 84.</p>
<p><u>21080.66(d) – Labor Requirements</u></p>	YES	<p>This requirement is not triggered because the Project will not exceed 85 feet in height.</p>

Table 2 – Environmental Factors
Gov. Code § 65913.4(a)(6)

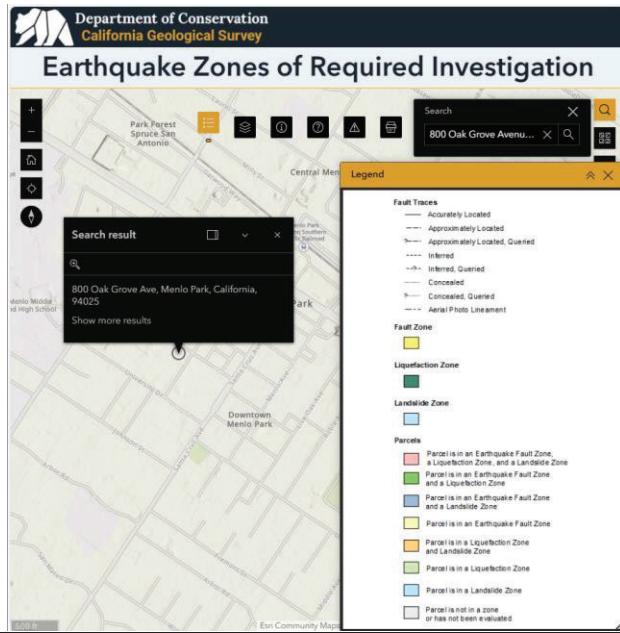

The development is not located on a site that is any of the following:		
Requirement	Consistent?	Analysis
(A. – Coastal Zone)		
<p>i. An area of the coastal zone subject to paragraph (1) or (2) of subdivision (a) of Section 30603 of the Public Resources Code.</p> <p>ii. An area of the coastal zone that is not subject to a certified local coastal program or a certified land use plan.</p> <p>iii. An area of the coastal zone that is vulnerable to five feet of sea level rise, as determined by the National Oceanic and Atmospheric Administration, the Ocean Protection Council, the United States Geological Survey, the University of California, or a local government's coastal hazards vulnerability assessment.</p> <p>iv. In a parcel within the coastal zone that is not zoned for multifamily housing.</p>	YES	<p><i>See California Coastal Commission Coastal Zone Boundary map.</i></p> <p>Pursuant to California Government Code Section 65913.4(6)(A), the Project site is not located in a coastal zone.</p>

<p>v. In a parcel in the coastal zone and located on either of the following:</p> <p>I. On, or within a 100-foot radius of, a wetland, as defined in Section 30121 of the Public Resources Code.</p> <p>II. On prime agricultural land, as defined in Section 30113 and 30241 of the Public Resources Code.</p>		
<p>(B. – Prime Farmland)</p> <p>Either prime farmland or farmland of statewide importance, as defined pursuant to the United States Department of Agriculture land inventory and monitoring criteria, as modified for California, and designated on the maps prepared by the Farmland Mapping and Monitoring Program of the Department of Conservation, or land zoned or designated for agricultural protection or preservation by a local ballot measure that was approved by the voters of that jurisdiction.</p>	YES	<p><i>See California Department of Conservation Important Farmland Finder map.</i></p> <p>Pursuant to California Government Code Section 65913.4(6)(B), the Project site is not located on Prime Farmland or Farmland of Statewide Importance. The Project site and surrounding area are designated Urban and Built-Up Land.</p>

		
<p>(C. – Wetlands)</p> <p>Wetlands, as defined in the United States Fish and Wildlife Service Manual, Part 660 FW 2 (June 21, 1993).</p>	<p>YES</p>	<p><u>See National Wetlands Inventory, Surface Waters and Wetlands.</u></p> <p>Pursuant to California Government Code Section 65913.4(6)(C), the Project site is not located on a wetland.</p> 
<p>(D. – Very High Fire Hazard Severity Zone)</p>	<p>YES</p>	<p><u>See California Department of Forestry and Fire Protection's Fire and Resource Assessment Program FHSZ Viewer.</u></p>

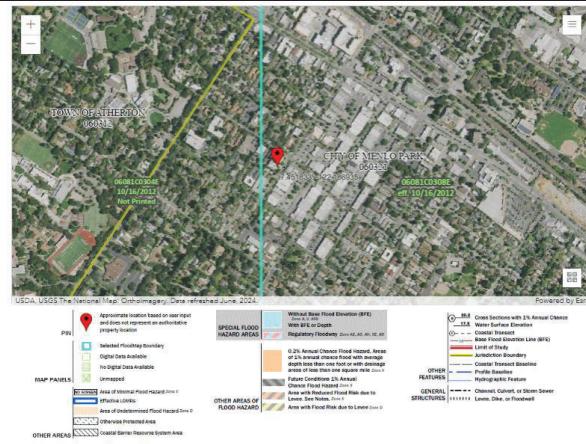

<p>Within a very high fire hazard severity zone, as determined by the Department of Forestry and Fire Protection pursuant to Section 51178, or within the state responsibility area, as defined in Section 4102 of the Public Resources Code. This subparagraph does not apply to sites that have adopted fire hazard mitigation measures pursuant to existing building standards or state fire mitigation measures applicable to the development, including, but not limited to, standards established under all of the following or their successor provisions:</p> <ol style="list-style-type: none"> i. Section 4291 of the Public Resources Code or Section 51182, as applicable. ii. Section 4290 of the Public Resources Code. iii. Chapter 7A of the California Building Code (Title 24 of the California Code of Regulations). 		<p><u>See California Board of Forestry and Fire Protection, State Responsibility Area Viewer</u></p> <p>Pursuant to California Government Code Section 65913.4(6)(D), the Project site is not located within a very high fire hazard severity zone.</p> 
<p>(E. – Hazardous Waste)</p> <p>A hazardous waste site that is listed pursuant to Section 65962.5 or a hazardous waste site designated by the Department of Toxic Substances Control pursuant to</p>	<p>YES</p>	<p><u>See CalEPA's Cortese List Data Resources.</u></p> <p>Pursuant to California Government Code Section 65913.4(6)(E), the Project site is not a waste site that is listed pursuant to Section 65962.5 or a hazardous waste site designated by the Department of Toxic Substances Control (DTSC) pursuant to Section 25356 of the Health and Safety Code.</p>

<p>Section 25356 of the Health and Safety Code, unless either of the following apply:</p> <ul style="list-style-type: none">i. The site is an underground storage tank site that received a uniform closure letter issued pursuant to subdivision (g) of Section 25296.10 of the Health and Safety Code based on closure criteria established by the State Water Resources Control Board for residential use or residential mixed uses. This section does not alter or change the conditions to remove a site from the list of hazardous waste sites listed pursuant to Section 65962.5.ii. The State Department of Public Health, State Water Resources Control Board, Department of Toxic Substances Control, or a local agency making a determination pursuant to subdivision (c) of Section 25296.10 of the Health and Safety Code, has otherwise determined that the site is suitable for residential use or residential mixed uses.		
--	--	--

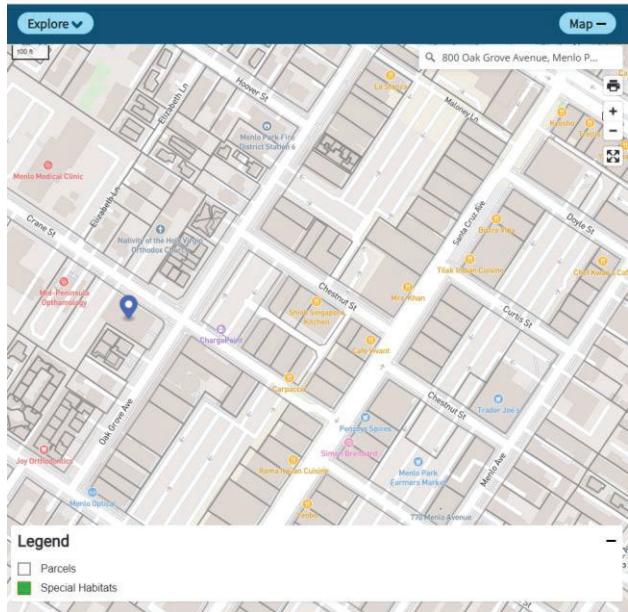

<p>(F. – Earthquake Fault Zones)</p> <p>Within a delineated earthquake fault zone as determined by the State Geologist in any official maps published by the State Geologist, unless the development complies with applicable seismic protection building code standards adopted by the California Building Standards Commission under the California Building Standards Law (Part 2.5 (commencing with Section 18901) of Division 13 of the Health and Safety Code), and by any local building department under Chapter 12.2 (commencing with Section 8875) of Division 1 of Title 2.</p>	<p>YES</p>	<p><u>See California Department of Conservation's EQZapp: California Earthquake Hazards Zone Application</u></p> <p>Pursuant to California Government Code Section 65913.4(6)(F), the Project site is not located within a delineated earthquake fault zone.</p> 
<p>(G. – Special Flood Hazard Area)</p> <p>Within a special flood hazard area subject to inundation by the 1 percent annual chance flood (100-year flood) as determined by the Federal Emergency Management Agency in any official maps published by the Federal Emergency Management Agency. If a development proponent is able to satisfy all applicable federal qualifying criteria in order to provide that the site satisfies this subparagraph and is otherwise</p>	<p>YES</p>	<p><u>See FEMA Flood Map Service Center: Search By Address tool</u></p> <p>Pursuant to California Government Code Section 65913.4(6)(G), the Project site is not located in a special flood hazard area subject to inundation by the one percent annual chance flood (100-year flood) as determined by the Federal Emergency Management Agency. The Project site is located in Zone X, which is not considered a special flood hazard area.</p>

eligible for streamlined approval under this section, a local government shall not deny the application on the basis that the development proponent did not comply with any additional permit requirement, standard, or action adopted by that local government that is applicable to that site. A development may be located on a site described in this subparagraph if either of the following are met:

- i. The site has been subject to a Letter of Map Revision prepared by the Federal Emergency Management Agency and issued to the local jurisdiction.
- ii. The site meets Federal Emergency Management Agency requirements necessary to meet minimum flood plain management criteria of the National Flood Insurance Program pursuant to Part 59 (commencing with Section 59.1) and Part 60 (commencing with Section 60.1) of Subchapter B of Chapter I of Title 44 of the Code of Federal Regulations.

<p>(H.– Regulatory Floodway)</p> <p>Within a regulatory floodway as determined by the Federal Emergency Management Agency in any official maps published by the Federal Emergency Management Agency, unless the development has received a no-rise certification in accordance with Section 60.3(d)(3) of Title 44 of the Code of Federal Regulations. If a development proponent is able to satisfy all applicable federal qualifying criteria in order to provide that the site satisfies this subparagraph and is otherwise eligible for streamlined approval under this section, a local government shall not deny the application on the basis that the development proponent did not comply with any additional permit requirement, standard, or action adopted by that local government that is applicable to that site.</p>	<p>YES</p>	<p><i>See FEMA Flood Map Service Center: Search By Address tool.</i></p> <p>Pursuant to California Government Code Section 65913.4(6)(H), the Project site is not located within a regulatory floodway as determined by FEMA. The Project site is located in Zone X, which is defined as an area of minimal flood hazard.</p>
<p>(I. Natural Community Conservation Plan/Habitat Conservation Plan)</p> <p>Lands identified for conservation in an adopted natural community conservation plan pursuant to the Natural Community Conservation Planning Act (Chapter 10 (commencing with</p>	<p>YES</p>	<p><i>See California Natural Community Conservation Plans.</i></p> <p>Pursuant to California Government Code Section 65913.4(6)(I), the Project site is not on land identified for conservation in an adopted natural community conservation plan.</p>

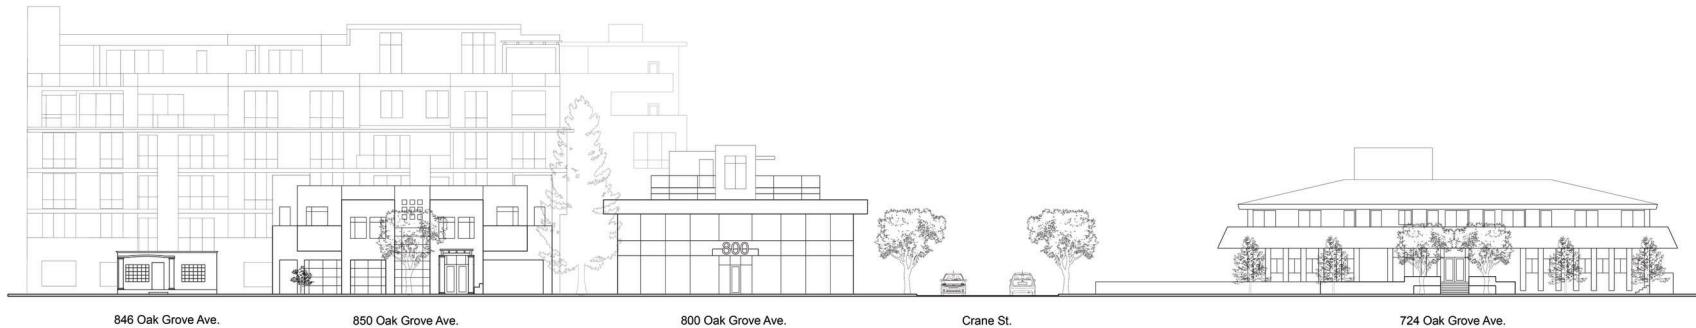

Section 2800) of Division 3 of the Fish and Game Code), habitat conservation plan pursuant to the federal Endangered Species Act of 1973 (16 U.S.C. Sec. 1531 et seq.), or other adopted natural resource protection plan.		
<p>(J. – Habitat for Protected Species) Habitat for protected species identified as candidate, sensitive, or species of special status by state or federal agencies, fully protected species, or species protected by the federal Endangered Species Act of 1973 (16 U.S.C. Sec. 1531 et seq.), the California Endangered Species Act (Chapter 1.5 (commencing with Section 2050) of Division 3 of the Fish and Game Code), or the Native Plant Protection Act (Chapter 10 (commencing with Section 1900) of Division 2 of the Fish and Game Code).</p>	YES	<p><u>See USFWS Critical Habitat Portal</u></p> <p>Pursuant to California Government Code Section 65913.4(6)(J), the Project site does not contain habitat for protected species identified as candidate, sensitive, or species of special status by State or federal agencies, fully protected species, or species protected by the federal Endangered Species Act of 1973, the California Endangered Species Act, or the Native Plant Protection Act.</p> 
<p>(K. Conservation Easement) Lands under conservation easement.</p>	YES	<p>The Property is developed and is not encumbered by a conservation easement.</p>

LANDSCAPE PLANTING NOTES

- REFER TO GENERAL PROJECT NOTES AND SPECIFICATIONS FOR ADDITIONAL INFORMATION
- ALL GRADES SHALL BE APPROVED BY THE OWNER'S REPRESENTATIVE PRIOR TO PLANTING OF ANY PLANT MATERIALS.
- REFER TO SPECIFICATIONS FOR PLACEMENT OF TOPSOIL, SOIL AMENDMENTS, FERTILIZERS AND ADDITIONAL PLANTING INFORMATION.
- A COPY OF THE NURSERY INVOICE SHALL BE SUBMITTED TO THE OWNER'S REPRESENTATIVE TO VERIFY COMPLIANCE WITH DRAWINGS AND SPECS.
- ALL PLANTS SHALL BE OF THE GENUS, SPECIES, VARIETY, CULTIVAR, AND SIZES AS SHOWN ON THE PLANS. UNDER NO CONDITION WILL THERE BE ANY SUBSTITUTION OF PLANTS OR SIZES FOR THOSE LISTED ON THE PLANS, EXCEPT WITH THE EXPRESS WRITTEN CONSENT OF THE OWNER'S REPRESENTATIVE
- ALL PLANTS SHALL BE TRUE TO NAME, AND SHALL BE TAGGED WITH THE NAME AND SIZE OF THE PLANT, IN ACCORDANCE WITH THE STANDARDS OF PRACTICE RECOMMENDED BY THE AMERICAN ASSOCIATION OF NURSERYMEN. PLANT HEIGHT AT INSTALLATION SHALL MEET MINIMUM HEIGHT REQUIREMENTS PER SIZE SPECIFIED AND PER AMERICAN STANDARD FOR NURSERY STOCK (ANSI Z60.1)
- IMPORT TOPSOIL MEETING SPECIFICATIONS SHALL BE INSTALLED IN ALL ON-GRADE PLANTING AREAS. A SAMPLE OF IMPORT TOPSOIL, ALONG WITH A COMPLETE SOIL ANALYSIS REPORT AS SPECIFIED, SHALL BE APPROVED BY THE PROJECT ARCHITECT PRIOR TO DELIVERY OF IMPORT TOPSOIL TO THE SITE.
- CALIPER OF TREES SHALL BE MEASURED 6" ABOVE FINISH GRADE.
- PROVIDE 3" MULCH OVER ALL NEW SHRUB AND GROUNDCOVER AREAS. MULCH SHALL BE ARBOR MULCH, DYED WITH A NATURAL UV PROTECTANT COLORANT. (COLOR BROWN) SEE SPECS. MULCH SHALL NOT BE RED OR DYED UNNATURAL COLOR.
- PLANT TREES A MINIMUM OF 4'-0" FROM EDGE OF PAVING, UTILITY STRUCTURES AND WALLS. NOTIFY OWNER'S REPRESENTATIVE OF CONFLICTS PRIOR TO PLANTING.
- PLANT LARGE TREES 12' FROM BUILDINGS. NOTIFY OWNER'S REPRESENTATIVE OF CONFLICTS PRIOR TO PLANTING.
- ALL TREES 36" BOX AND LARGER SHALL BE GUYED. REFER TO DETAILS.
- ALL 15 GALLON AND 24" BOX SIZED TREES SHALL BE DOUBLE STAKED. REFER TO DETAILS.
- STAKING AND GUYING ELEMENTS SHALL BE REMOVED AFTER ESTABLISHMENT AND ANY HOLES LEFT BY THE STAKES SHALL BE FILLED WITH BACKFILL MIX.
- ALL SHRUBS AND GROUNDCOVERS SHALL BE SET 1/2 THE DIMENSION OF THE SPACING FROM ADJACENT WALKS, CURBS AND WALLS UNLESS OTHERWISE SHOWN.
- ALL SHRUB AND GROUNDCOVER SPACING SHALL BE EITHER LINEAR OR TRIANGULAR UNLESS DRAWN OTHERWISE. REFER TO PLANS AND DETAILS FOR PATTERNS.
- WHERE CIRCLES SHOW PLANTS, TRUNK OF PLANT EQUALS CENTER POINT OF CIRCLE.
- FOR DESCRIPTION OF PLANTERS SEE LANDSCAPE SPECIFICATIONS.
- PROVIDE HEALTHY, VIGOROUS PLANTS TYPICAL OF THE SPECIES, FREE OF PESTS OR INJURIES.
- ORIENT PLANTS IN PLANTERS SO THAT THEIR BEST APPEARANCE IS MOST VISIBLE.
- FOR HYDROZONES, SEE IRRIGATION PLANS.
- ALL PROPOSED TREES SHALL BE PRUNED FOR STRUCTURAL SOUNDNESS AND THINNED TO REDUCE WIND SAIL AT THE DIRECTION OF THE OWNER'S REPRESENTATIVE.
- WHERE PROPOSED TREE FOOTBALL IS ADJACENT TO EXISTING PROTECTED UTILITY LINE, A TREE ROOT BARRIER IS REQUIRED. SEE DETAILS.
- NOTE: REFER TO SPECIFICATION SECTION 32-93-00 PLANTING FOR NOTES ON CONTRACT GROW/N/PURCHASE OF TREES BY OWNER. CONTRACTOR'S BID PRICE SHALL INCLUDE BALANCE OF CONTRACT VALUE FOR TREES, FERTILIZER, ANY STORAGE FEES, TREE PLANTING HOLES, REINFORCED TOP SOIL, BACKFILLING WITH COMPOST AMENDMENT, IRRIGATION SYSTEM, SAWCUT ROOT BALL, STAKING OR GUYING, 60 DAY MAINTENANCE, 1 YEAR WARRANTY, ETC. TO PROVIDE COMPLETE INSTALLATION TO THE OWNER'S SATISFACTION.
