STAFF REPORT

Parks and Recreation Commission

Meeting Date: 8/26/2026

Staff Report Number: PRC-2026-027

Study Session: Parks and Recreation Commission update and report out on completed self-guided park tours

Recommendation

Staff recommends that the Parks and Recreation Commission (PRC) update and report out on completed self-guided park tours.

Policy Issues

As a duly appointed advisory body to the City Council, the PRC is charged with advising the City Council on matters related to the City's parks and recreation facilities.

Background

The PRC's approved workplan for 2025-26 included a goal for individual PRC members to participate in self-guided tours of City parks and report out to the PRC (Attachment A).

City staff developed an online park tour report out form for PRC members to record and offer their observations of their self-guided park tours (Attachment B).

At the August 27, 2025 meeting the PRC received and approved the draft park tour report out form (Attachment C).

On April 22, 2026 the PRC held a study session to prepare a draft work plan report out (Attachment D). During the study session, the PRC requested that City staff bring back park tours as an agenda item at the May 27, 2026 meeting so that the PRC can make further progress on completing the park tour work plan item.

At the May 27, 2026 PRC meeting, the commission held a study session for PRC updates and report outs on completed self-guided park tours (Attachment E). Chair Lee reported out on his tour of Karl E. Clark Park (Attachment F), and Commissioner Chunyu reported out on her tours of Sharon Park and Jack W. Lyle Park.

At the June 24, 2026 PRC meeting, the commission had no new self-guided park tour report outs.

At the July 22, 2026 PRC meeting, Chair Grass reported out on his tour of Bedwell Bayfront Park.

Information from all previously completed park tour report outs is available in Attachment H.

- Other public-access parks not operated by the City of Menlo Park include:
 - Flood Park operated by San Mateo County Parks at 215 Bay Rd.
 - Meta Park operated by Meta Platforms, Inc., at 1 Meta Way.

Information about each of the City-operated parks is available on the Parks webpage (Attachment G).

The approved PRC park tour report out form in Attachment B includes form fields for PRC members to record the details of the park visit and to share observations and comments. Data from Commissioner report outs and park tour forms will be used to gain insights about the parks visited, the current state of equipment and amenities at the parks, visitors present at the time of the visit, and activities taking place at the parks. Commissioners may also provide report outs in their preferred format.

City staff recommends that the PRC provide a report out on any scheduled or completed park tours.

Summary findings of previously completed report outs of self-guided park tours are available in Attachment H.

Impact on City Resources

As an advisory body to the City Council, the Parks and Recreation Commission does not authorize resource allocations. City budget authorizations are the sole purview of the City Council. There is no substantive impact to the City's general fund related to the topics in this report.

Table 1: Self-guided park tour report outs

Park name	Improvements needed	Other observations or park strengths
Karl E. Clark Park	Aging play structures have chipped paint and rust, predate inclusive play guidelines, and lack shade. Structures should be replaced with modern inclusive equipment for ages 2-5 and 5-12, sensory play, ADA ground-level activities and climbing wall.	Amenities: Fenced playground with 2 structures, swing set, small open grass field for free play, paved walking paths that are ADA accessible, one picnic table and 1 drinking fountain, trash and recycling receptacles, shade trees throughout, SamTrans stop nearby, named for a local hero.
	Benches are worn and powder coat has flaked off and metal is oxidizing.	No restroom.
	Overgrown weeds at access walkway limits movement and is used for illegal dumping.	Park was last refreshed eight years ago.
	Irrigation is broken and floods outside the playground leaving soil bare and turf washed-out next to walkways.	
	Could add additional picnic tables.	
	More frequently removal of stickers and graffiti from amenities.	
	Repaint and re-seal the tube-steel fencing around large play area.	
	Replace or repair self-closing gate latches so the enclosure reliably keeps dogs out of the play surface.	
Jack W. Lyle Park	Play area could be safer if fenced and separated from basketball court.	Is a destination park for pickleball and tennis players.
	More seating is needed for soccer fields.	Busy during the day with a lot of nannies and young children present.
		People leave behind toys. The park seems to have become an impromptu donation location for them.
Sharon Park	Walking path around the park is uneven and could be improved by removing tripping hazards.	The lake, wildlife, diverse recreation elements, diversity of visitors (in both age and background) lend themselves to the park's uniqueness.
	Play elements are aging and could be updated.	Park appeared to be a destination for bicyclists.
	Water quality/cleanliness could be improved.	
Bedwell Bayfront Park	Some trails need to be redone.	Amenities: open fields for kite flying, walking trails, migratory bird watching, stroller walkways available, bike trails, open spaces, signage appeared to be in good shape, tides from bay, has a Friends of organization, walking bridge for access, ranger services.

Some of the interior trails are steep, crossing the park's hills, and lead to several viewpoints. Some park trails are suitable for wheelchairs. The relatively flat 2.3-mile trail around the perimeter of Bedwell Bayfront Park is part of the San Francisco Bay Trail, which will encircle San Francisco and San Pablo Bays with a continuous 400-mile network of bicycling and hiking trails, connecting the shoreline of all nine Bay Area counties and linking 47 cities.

STAFF REPORT

Parks and Recreation Commission

Meeting Date: 8/26/2026

Staff Report Number: PRC-2026-028

Regular Business: Recommend Parks and Recreation Commission work plan for 2026-27

Recommendation

City staff recommends that the Parks and Recreation Commission (PRC) recommend its work plan for 2026-27 in preparation for submitting the updated work plan to City Council for approval tentatively in September.

Policy Issues

City Council Policy CC-24-004 (Attachment A) sets the procedures, roles, and responsibilities of Council-appointed advisory bodies, including the PRC. The policy requires that each advisory body develop an annual work plan, which will be the foundation for the work performed by the advisory body in support of City Council's annual work plan. The plan, once finalized by a majority of the advisory body, will be formally presented to the City Council for direction and approval no later than September 30 of each year and then reported out on by a representative of the advisory body at a regularly scheduled City Council meeting at least annually, but recommended twice a year.

Background

On September 30, 2025, the City Council revised the proposed 2025–26 PRC work plan and approved the revised version (Attachment B).

On October 22, 2025, the PRC received the City Council approved 2025–26 work plan (Attachment C).

The PRC is tentatively scheduled to submit a new recommended PRC work plan 2026-27 to the City Council for approval on September 15, 2026.

On June 24, 2026 the PRC held a study session (Attachment E) to prepare its work plan for 2026-27 and agreed to bring the item back for further discussion at the July 22, 2026 meeting.

On July 22, 2026 the PRC reviewed and edited its work plan for 2026-27 (Attachment F) and agreed to bring the item back for further discussion at the August 26, 2026 meeting (Attachment G).

Analysis

Current PRC work plan 2025-26

The PRC's current 2025-26 work plan (Attachment D) includes several goals, including but not limited to:

- Encourage and facilitate robust public comment and participation
 - Foster an inclusive public meeting environment

- Focus on resident input and relationships
- Support and advise recreation program development and operations by reviewing programs and services with a focus on high-quality services
- Review progress toward the goals in the 2019 Parks and Recreation Facility Master Plan (PRFMP).
- Participate in park and recreation facility tours to build awareness of recreation systems.
- Advise on topics related to the maintenance and upgrade of recreational facilities, prioritizing accessibility, safety, and sustainability.
- Periodically review public-facing recreation policies and recommend updates, as required, with a special focus on policies that may be impacted by shared space operations.
- Periodically receive staff presentations and reports about major parks and recreation service areas and programs, other city departments, and the Youth Advisory Committee.
- Maintain a 12-month schedule of planned Commission agenda items, update and post for public review monthly.
- Annually host City Council liaison at the Parks and Recreation Commission meetings.

Impact on City Resources

As an advisory body to the City Council, the PRC does not authorize resource allocations. City budget authorizations are the sole purview of the City Council. There is no substantive impact to the City's general fund related to the topics in this report.

Environmental Review

This report is not a project within the meaning of the California Environmental Quality Act (CEQA) Guidelines §§ 15378 and 15061(b)(3) as it will not result in any direct or indirect physical change in the environment.

Public Notice

Public notification was achieved by posting the agenda, with the agenda items being listed, at least 72 hours prior to the meeting.

3. Review progress toward the goals in the 2019 Parks and Recreation Facility Master Plan (PRFMP) and revise for current needs.
4. Participate in park and recreation facility tours to build awareness of recreation systems.
5. Advise on topics related to the maintenance and upgrade of recreational facilities, prioritizing accessibility, safety, and sustainability.
6. Periodically review public-facing recreation policies and recommend updates, as required, with a special focus on policies that may be impacted by shared space operations
7. Periodically receive staff presentations and reports about major parks and recreation service areas and programs, other city departments, and the Youth Advisory Committee. Schedule commissioners to attend YAC meetings and plan joint project work in collaboration with them. Solicit and receive feedback from YAC on Parks and Recreation Commission work.
8. Maintain a 12-month schedule of planned Commission agenda items, update and post for public review monthly.
9. Annually host City Council liaison at the Parks and Recreation Commission meetings.

10. Establish system for tracking commission feedback received from the community and review progress at later date.

11. Create new goals similar to 6k Community Fun Run to continue to challenge ourselves next year.

STAFF REPORT

Parks and Recreation Commission

Meeting Date: 8/26/2026

Staff Report Number: PRC-2026-029

Informational Item: Library and Community Services department updates and statistics

Recommendation

City staff recommends that the Parks and Recreation Commission (PRC) review and provide feedback on the statistics and recent activities in the Library and Community Services (LCS) department outlined in this report.

Policy Issues

As a duly appointed advisory body to the City Council, the PRC is charged with advising the City Council on matters related to the City's libraries.

Background

LCS provides a wide range of lifelong learning and recreational opportunities for Menlo Park residents of all ages, abilities and lived experiences. Programs and facilities include public libraries, recreation and sports, early childhood education, after-school programs, summer youth camps, older adults (senior) services, athletic fields and courts, community events and aquatics.

Analysis

July 2026 statistics (Attachment A)

LCS collects statistics related to department activities. These data help to inform decision-making and improve services to the community.

Suggestion box comments and responses (Attachment B)

LCS collects public feedback through physical suggestion boxes in public facilities and an electronic feedback form. A compilation of recent comments, along with responses prepared by City staff, is provided in Attachment B.

Vehicle Licensing Fee Funding

The City of Menlo Park recently learned that the State of California is reducing San Mateo County's Vehicle License Fee (VLF) backfill allocation for fiscal year 2025-26 by \$101 million. This reduction increases the County's total funding shortfall to \$226 million and could result in a \$5.4 million funding shortfall for the City if no legislative solution is implemented.

Bedwell Bayfront Park access improvements project updates

In November 2027, the City Council adopted the Bedwell Bayfront Park master plan (Attachment C). The

master plan included recommendations to enhance the park entrance to make it a more pleasant experience, create a sense of arrival, and improve access to the available recreational resources. Specific elements of the project include:

- A new pedestrian entry plaza including an ADA-compliant curb ramp that will connect planned pedestrian sidewalk improvements along Haven Avenue and Marsh Road with the Park entry trails and an existing segment of the Bay Trail
- Reconstruction of an existing pedestrian and bicycle multi-use path, designated as Bay Trail and connecting a segment of Bay Trail, along Bayfront Expressway with the portion of Bay Trail around the perimeter of Bedwell Bayfront Park

In November 2018, staff developed a preliminary project design based on community input received during the master plan process. The design was refined based on a review of site constraints and pedestrian, bicycle and vehicular access requirements.

Later, the original plan was modified to account for sea level rise (SLR) efforts along the entrance road. Accounting for SLR increased project costs significantly, and the project was paused. Some portions of the SLR improvements were already included within the original scope of work and would not significantly impact future SLR projects near the entrance road. In response, the project's scope was changed to account for those portions and to mitigate the amount of rework related to SLR in the future.

The new plan includes installation of a trail at the entrance of the park, which will separate pedestrian and bicycle traffic from vehicular traffic while improving access. The trail design adheres to the Bedwell Bayfront Park Master Plan. Installing the trail will result in a change to the parking layout at the park's entrance. Notably, parking is being converted to parallel parking, as opposed to nose-in parking. The change to parallel parking will result in the loss of 19 spaces, as shown in the concept plan in Attachment D. The 19 spaces will be replaced with additional informal parking spaces near the restroom facility.

Bidding for the project is anticipated to take place in Winter 2026 with construction to commence in Summer 2027.

More information is available at the Bedwell Bayfront Park Access Improvements project page (Attachment E)

Aquatics hours

Beginning Sept. 8, Burgess Pool and Belle Haven Pool will implement new hours that were adopted as part of balancing the City's budget for fiscal year 2026-27 (Attachment F). The new hours follow a common model for public pools, with more hours in summer and fewer in other seasons to keep aquatics programs available to as many pool users as possible. The new pool hours are available in Table 1 and the full aquatics program schedules are viewable at Menlo Swim and Sport's website (Attachment G).

Recreation classes – Fall 2026 enrollment

Enrollment for Fall 2026 recreation classes opened on Thursday, Aug. 13, for hyperlocal Belle Haven residents, Saturday, Aug. 15, for Menlo Park residents, and Monday, Aug. 19, for non-residents. At the time of this report, there were 2,183 fall enrollments since registration opened. Classes include fitness, dance, sports, gymnastics, music, drama, arts and crafts, lifelong learning, and more. Enrollment details and classes are available on the City's Activity Guide webpage (Attachment H).

Customer satisfaction surveys

The City of Menlo Park offers a wide variety of classes and programs for the community throughout the year. To ensure high levels of customer satisfaction, LCS conducts a customer satisfaction survey at the end of each recreation class season. Feedback from these surveys helps assess the quality of classes, customer service, and identify areas for improvement.

At the conclusion of the Spring 2026 season, customer satisfaction surveys were distributed via email to class participants. Survey responses are presented in Attachment I. The surveys gathered feedback on overall customer experience, quality of instruction, communication methods, the registration process, facility conditions, quality of life benefits, and the type of class enrolled in and provided an opportunity for additional comments or suggestions.

The Spring 2026 survey had 152 participants, 3,406 responses, and 82 free-text comments.

Impact on City Resources

As an advisory body to the City Council, the PRC does not authorize resource allocations. City budget authorizations are the sole purview of the City Council. There is no substantive impact to the City's general fund related to the topics in this report.

Environmental Review

This informational item is not a project within the meaning of the California Environmental Quality Act (CEQA) Guidelines §§15378 and 15061(b)(3) as it will not result in any direct or indirect physical change in the environment.

Public Notice

Public notification was achieved by posting the agenda, with the agenda items being listed, at least 72 hours prior to the meeting.

My apologies for taking so long to respond to your suggestion. We had some staff turnover and your message got missed. Your suggestion to add shower curtains to the locker rooms at Belle Haven Pool is a good one – we will discuss it with our pool

31	2026-06-29	Belle Haven Community Campus	Pool is kind of cold	The performance pool is set to be 80 degrees and the instructional pool is set to be 86 degrees. If the pool temperature drops below a certain point the pools will close. This comment could be from a day when the pool was experiencing mechanical issues and the pool was cooler than usual.
32	2026-06-29	Belle Haven Community Campus	Regarding the pickleball program. It would be a great idea for the courts to have open play so that people who turn up can all have a chance to play. Setting up a paddle rack like Nealon Park would be very helpful. As players arrive they can place paddles on rack and wait for their turn. There should also be a sign indicating that this pickleball courts are for open play. That would prevent people from monopolizing the courts.	The Pickleball courts at Kelly Park are open for drop-in play 7 days a week from 8:00am-10:00pm. There are 2 courts that are reservable online using this link Pickleball City of Menlo Park . We have just ordered new paddle racks for both Nealon and Kelly Park and will be installing those once they arrive, we are also working on getting some signage at the courts that communicates how folks should use the paddle rack for waiting their turn when the courts are full. Please let us know if you have any other questions.

39	2026-06-21	Belle Haven Pool	Add a jacuzzi please	I could use a good soak after a long City Council meeting (and I think the Council would like that as well). We don't have the space for a jacuzzi, sadly.

40	2026-06-21	Belle Haven Pool	Add food court please, thanks.	Now I am thinking about Cinnabon. A food court is probably not in our future, but we do have food trucks at some special events. We'll loook for ways to do that more frequently.
41	2026-06-29	Belle Haven Pool	Let us dive	Hey there, diving isn't allowed for safety reasons. Not everyone is a skilled diver, and sometimes people in the pool aren't looking out for people who are diving. We want to keep everyone safe.
42	2026-06-29	Belle Haven Pool	Bring back the turtle that shows the temperature	Not sure what the temperature turtle is - my guess is that it was a turtle themed thermometer? It was apparently well loved, but was provided by the pool operator. We can reach out to them to see if it can be replaced.
43	2026-06-29	Belle Haven Pool	You have to bring back the turtle that shows the temperature	Not sure what the temperature turtle is - my guess is that it was a turtle themed thermometer? 45	2026-06-29	Belle Haven Pool	Maybe you guys could sell drinks or snacks to swimmers?	We don't have room at the BH Pool to sell snacks. Food and drinks aren't allowed on the pool deck for safety and hygiene reasons, but you can eat in the seating area. Glass or ceramic containers aren't allowed on deck.

48	2026-03-11	Burgess Pool	Dear Swim Coach Management, I sat in on an intermediate bridge lesson for Wednesday at 4:30-5:15. In contrast to previous observations of beginner and intermediate sessions (bridge) I was disappointed. Instructor was slow to give tips, not encouraging, but most of all- the kids spent most of their time on either end of the lap lane waiting on call to swim for the 45 min	Thank you for the feedback regarding the coaching at the Burgess Pool. City staff will speak to the aquatics operator about this. Tricia

57	2026-05-01	Burgess Pool	Could you please do something to prevent mothers (dads too?) from leaving their small children in the shower for 5-10 minutes? It is the strangest, most wasteful thing, costing us lots in water loss. Often the adults are getting dressed or on the phone. Observed many times on weekends. Argh.	Thank you for your comment regarding limiting shower time at the Burgess Pool. Staff will discuss with the pool operator. Tricia

We typically have a few copies left over once all of the participants have picked their books up. Can you tell me a little bit more about your experience? 75	2026-03-24	Menlo Park Library	Hi, I've noticed weekly programs during the week for up to 3 yrs old and the 6+ across all smcl, but nothing to cater to 4-5 yr olds. Is it possible to find or create a program for this age?	Thank you so much for suggesting we provide more weekly programs for the 4-5yo age range. It's great to hear from our community about what they want, and it does help to inform our programming choices, going forward. Sincerely, Rose

76	2026-04-01	Menlo Park Library	Too many subdivision on BIO/Memoir even had a poetry book by Omdaatje in there! Impossible to locate something on one's own!	Thank you for providing us with feedback about the organization of our Biography section. The Dewey Decimal call numbers and the subject headings that we use are fairly standard for a public library. However, our ultimate goal is to make sure that our collection is findable by our community, and Dewey is not a perfect system. We typically have staff on the floor who are happy to help you to find materials, or to teach you to use the catalog computers (if you wish for independence in your searching). Please let me know if you'd like to have a follow-up conversation; I'd be happy to provide these services myself, if you so desire. Sincerely, Rose

86	2026-06-19	Menlo Park Library	There's a poster above the library suggestion box that says children 11+ should have a means to contact their grown up if unsupervised at the library. I think this policy encourages cell phones for kids which tons of research shows is bad for their development and health. Please repeal this policy and allow kids to use the library phone in emergency.	Hi! Thanks for looking into this so promptly! This sounds good to me. In my eyes, the less kids need cell phones, the better. I'm glad the library doesn't require them.

90	2026-06-29	Menlo Park Library	Please insert NEW, not blueray dvds near Quick Pick books across from main desk. The same ones have been there a very long time. Thanks.	Thank you for bringing the issue with the new DVDs turnover to our attention. We have been at the end of the fiscal year, when purchasing must, by necessity, come to a halt. That said, now that the new fiscal year has begun, we will be sure to switch those DVDs out. Sincerely, Rose
91	2026-06-29	Menlo Park Library	Could we add signs so that the patrons know what the desks are called? Items like video games, park passes say " check out at Helpdesk", but there is no way for patrons to know which desk that is. Likewise, we sometimes put the sign at the Helpdesk that says "please see Accounts desk for assistance", but people don't know the desk is called that. A big "Helpdesk" or Accounts Desk" sign on or above the desks would make it much easier for patrons to know where to go!	[no contact into] This is a great idea. Thank you for suggesting it!

105	2026-05-09	Online	It appears that most of your programs are at Belle Haven. I live near the Alma Street library. It would be great if you would advertise the Burgess Park activities as much as you do the Belle Haven activities. It seems as if all of your energy is going only to Belle Haven. I must have overlooked something! Thank you. Stephanie	Thank you for getting in touch with your concerns about the ratio of library events hosted at Belle Haven Library and Menlo Park Library. I'm happy to report that, in the months of May through August, 60% of the in-person (e.g. not hosted online) events at our library were/will be hosted at Menlo Park Library. I'd love to hear more from you about what sorts of events you'd like to see at Menlo Park Library. Your feedback will help to inform the contracted presenters that we select! Sincerely, Rose

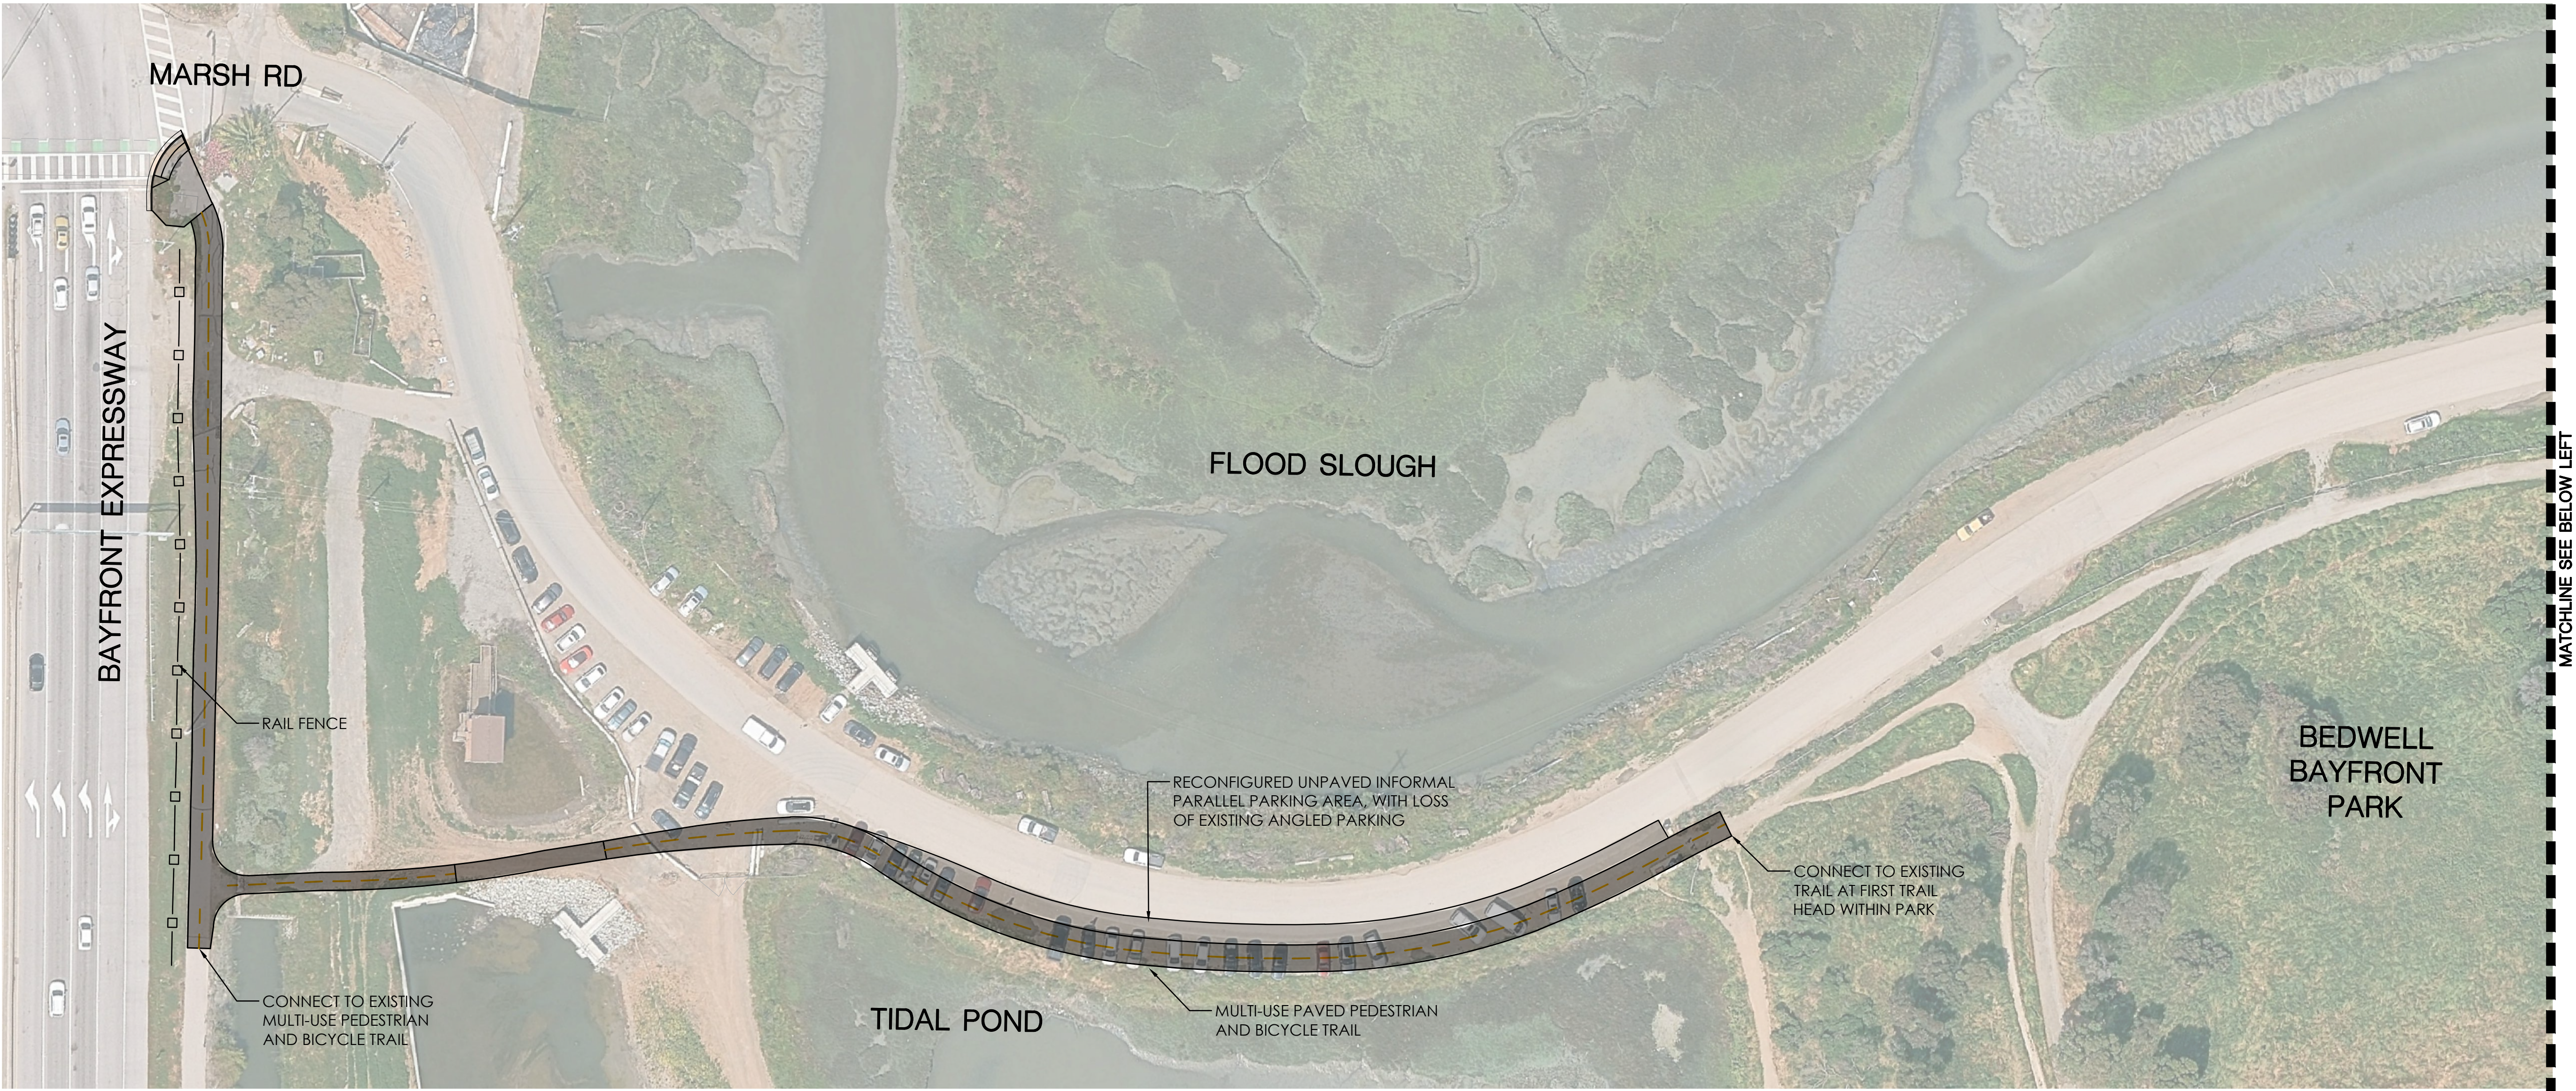

106	2026-05-18 Online	Dear Library Director / Children's Programming Coordinator, I am writing to express my serious concern about the recent selection of <i>Lunar Boy</i> for an elementary school children's book club and was handed out to kids at book club on Sat, May 16. I understand that libraries serve diverse communities and that families hold different values. However, I strongly object to the library promoting a book with LGBTQ-related themes to elementary-aged children through a children's book club without clear advance notice to parents. Regardless of one's personal views on the topic, this is sensitive content for young children, and parents should be given the opportunity to decide whether and when their children are introduced to these subjects. My concern is not about whether the book should exist in the library collection. My concern is that it was actively promoted to young children in a structured program, where parents may have reasonably assumed the material would be age-neutral and broadly appropriate for elementary students. I am asking the library to take the following steps: 1. Provide parents with advance notice of all book club selections, including a brief description of themes that may be sensitive or values-based. 2. Allow parents to opt out of specific selections without their child being singled out. 3. Reconsider whether books involving gender identity, sexuality, or other sensitive social topics are appropriate for elementary-aged book club programming. 4. Establish a transparent review process for children's programming materials. I would appreciate a written response explaining how this book was selected, what age group it was intended for, and what safeguards the library will put in place	Hello, we post our book selection for the Middle Grade Book Group in a few different places. Below is a list of places where you can see the upcoming Middle Grade Book Group Schedule. [list includes fliers, event listings, email list, and bibliocommons list] All books that are chosen for this book group have a publisher's age range of 8 to 12. This is something that is explicitly stated on the website, flyers, and in the emails that are sent out to parents. The goal of Middle Grade Book Group is to encourage kids to read books that they might not otherwise read. We focus on choosing books based on the list of books the kids tell us they are interested in, while also leaving space for diversity. We want to be sure that all members of our community are represented in the books that we share. Discussing these books gives the kids opportunities to both see themselves in the stories they are reading and see other members of their community in these stories. We have read a wide range of books over the last two years including books about censorship, bullying, mental health struggles, racism and prejudice, disability, and identity. At the end of each meeting, there is a chance for kids to not take the books we are handing out. We present the question as a yes or no question and do not ask why a child is not taking the book in order to be sure the kids do not feel singled out if they don't want to participate in the following month's choices. We also leave it to the end of the meeting to give kids a chance to leave while we are handing out books if they are not interested. Every month we have at least two kids who do not take copies of the following month's books.
-----	-------------------	---	---

			going forward to ensure parents are properly informed. Thank you for taking this concern seriously. I hope the library can continue to be a welcoming place for families while also respecting parents' role in guiding their children's moral, social, and developmental education. Sincerely, Victoria Marty

108	2026-06-29	Online	At the Willow Oaks tennis courts, the gate from the parking area directly into Court 4 is currently locked. Because of this, players have to enter through Court 2, which disrupts games and creates unnecessary inconvenience. We have reached out to our maintenance team to have the gate near the parking area for Court 4 unlocked so that it is easier to access the court.
109	2026-07-14	Online	Public Wifi never got fixed. Worst than any 3rd world country. It caused the closure of the library for 3 unproductive days!	Hello, I'm sorry to hear that you are continuing to experience difficulty with our wifi. The problems that we were experiencing in the time period to which you refer have been resolved, so I would be interested in hearing a little bit more about what you are experiencing, so that I can try and resolve the issue. Can you tell me when you experienced this difficulty, in which library (and where in the library), and what the failure looked like? For example, were you unable to get on the wifi at all, or were you able to get on but then dropped off repeatedly? This information will assist me in troubleshooting the problems that you describe. Sincerely, Rose

110	2026-07-20	Online	Why is Nealon dog park still closed after 7 weeks. Supposed to open july13th.	The Nealon Dog park serves as a multi use field and was closed from May 25th-July 13th for field maintenance. The dog park should be open as of today and will be open the remainder of this week. We do have Summer baseball camps scheduled at Nealon Park for some weeks in July and August, so the dog park will be closed for those weeks. We have updated our Nealon and Willow Oaks park pages to include more info on our Dog Parks. There is a link on both park pages that will take you to our teamsideline website which communicates all field closures to the public. 111	2026-07-21	Online	Please give us a list of non-fiction books that librarians have enjoyed. Thank you!	Hi! Thank you for suggesting a staff favorites nonfiction list. We love a prompt! 112	2026-07-27	Online	I would like to suggest creating a free community Math & Puzzle Club for elementary school children in Menlo Park. I have heard many families speak highly of the Thursday Chess Club, which provides a wonderful opportunity for children to meet, learn, and build friendships around a shared interest. I believe a similar club for children who love math, puzzles, logic, and problem solving would also be a valuable addition to our community. The club could be modeled after the Julia Robinson Math Festival held by the City of Palo Alto, where children explore engaging math puzzles and games in a fun, collaborative, and non-competitive environment. Rather than tutoring or accelerating the school curriculum, the focus would be on curiosity, creativity, and enjoying mathematics together. If there is already a similar program in Menlo Park, I would greatly appreciate learning about it. If not, I hope the City would consider offering or supporting one in the future. Thank you for your time and for all that you do to provide	

			enriching programs for children and families in our community. Sincerely, Danni	
113	2026-08-02	Online	Hi, I've only been able to attend 2 of the garden talks. Wednesdays are not working out for me. Are the talks recorded and saved, so they can be rewatch if you can't attend. They are informative. thank you.	Thank you so much for reaching out about recordings of our garden talks. We are in the process of figuring out a hosting platform for such recordings. In the intervening time, I would advise that the topics often repeat in a cycle throughout the year - so you haven't missed it forever! Sincerely, Rose
114	2026-08-02	Online	Is there a work plan to fix the sprinkler and poor sanitary condition of the water in the above park? Many of us residents are concerned that the city has abandoned this particular park. In the past, it has been a place of pride. Please respond.	Thanks for taking the time to write to us about your concerns at Sharon Park. While LCS runs the programming at the parks (courts, reservations, classes), we don't perform park maintenance – that's done by our colleagues in Public Works. I forwarded your email to the Parks supervisor on 8/3 and asked that he follow up with you. You can report future parks maintenance issues through our ACT Menlo app (search "ACT menlo park" in the app store) and they will get routed to the appropriate staff member. Kind Regards –
115	2026-08-02	Online	I would like to share how grateful our family is for the Dance Expressions program and the impact it has had on my step daughter's life. She started dancing with Dance Expressions as a preschooler, and over the years it has become so much more than a class — it has been a place where she has grown in confidence, discipline, friendships, and love for dance. Her dream has always been to continue progressing through the program and one day become part of the Performing Company. Having that pathway and something to work toward has been incredibly meaningful for her. Dance Expressions is a valuable recreation program that gives students the opportunity to grow from their very first steps in dance through more advanced levels, creating a true sense of belonging and connection to the community. We are so grateful for the dedication and opportunities this program provides, and we hope it continues to receive the love, recognition, and support of the Recreation Center and the community it serves.	Thanks for taking the time to write to us, and for your kind words about Dance Expressions – we think they're great too! I will pass along your compliments. Kind Regards -
